

PUBLIC ADVISORY

WELCOME VISITORS! BE MINDFUL. BE SAFE.

Lake County is beautiful, but please don't be deceived. COVID-19 has been here, is here, and will continue to be here for some time. The "big lake," our trails and state parks have room for many, but our medical facilities don't.

Follow basic mitigation strategies:

- Wash hands, cover coughs, avoid touching shared surfaces
- Enjoy the outdoors, but stay 6 feet from people outside your family group
- If you must go into stores or other businesses, disinfect your hands before entering, wear a mask, respect social distancing
- Pay attention to signs with guidelines specific to each business
- Limit gatherings to 10 people or fewer
- Stay home if you're sick
